Then treat your hair well. See that it is properly fed. Growth of every kind demands proper food. Starved hair splits at the ends, turns prematurely gray, keeps short and dry. Then feed your hair. Feed it with proper tood, a regular hair-food. Feed it with Ayer's Hair Vigor. Thus help nature all you possibly can toward giving you rich, heavy, luxuriant hair. SOLDIER ON SALOONS.

Editor Advertiser:-I wish to ask your acceptance of this letter, dealing with the temperance question among the soldiers.

I may here state that the article is correct, as it comes from a person who knows, and it may be regarded as the

For the present we will confine our attention to the army on Oahn. attention to the army on Oahu. There are about 4000 men on this Island connected with the military posts, whose pay will average \$20 per man, and the people of this city may safely figure on nearly three quarters of this money coming into circulation in Honolulu.

Let us stop here to ask ourselves who gets the most benefit from this money. the respectable business man or the sa-loon? Also, Mr. Voter, let me ask you whether you want this money to go towards the good of the city, or do you want to see it go towards the sup-port of crime and the institutions where

rime is bred and reared?

It may be that the majority of citizens hold the idea that all, or nearly all of the men in the service are drinkers more or less, but nevertheless, hard as it may be for some to believe after hav-ing seen so many soldiers in a drunken condition, the fact still remains that the hard drinker or the habitual drinker is in the minority. So, Mr. Voter, the men of the United States Army who are temperate and well-behaved would, without doubt, appreciate it if you help them protect the name of the army by pro-tecting them; by not classifying them as a whole with their less temperate

We have one condition in the army here in Oahn that is hard to be met by any other means than the abelishment of the saloon. As you people of Honolulu know, the men of the service are restricted to the wearing of the uni-form at all times. Now the men of the service are in the main backward or shy when in uniform, as they realize that they are conspicuous, and all have the somewhat mistaken idea that they are not welcome in most public places when so dressed. Thus we have the fact ivid bare to us that there is only one public place that the soldier thinks emporium, where he is really welcome

Governor Frear will not approve any charter or any amendments to articles of association which contain a clause permitting the corporations interested to form copartnerships.

It is a sad but true fact that the guardhouses of this Island are full of young men, who are for the most part young fellows who, were it not for liquor, would be a credit to any community. There are at one of the city posts upwards of forty men in confinement, of whom over half are men dis-honorably discharged from the army, and in the majority of cases the cause of their misfortune was the ever present

HACKFELD TELLS OF DAHU SUGAR STOCK

Honolulu Oil\$1,271/4 \$1.35

Onhu Sugar shares sold yesterday as well as the day before at 25.625 a share. Some brokers who handle this stock insist that the price will rise and others, whose ideas are pessimistic, insist that the bottom has not been reached. John F. Hackfeld, whose knowledge of conditions on the plantation is second to none, says there is no reason for the decline beyond the dry weather and the enormous beet crop in Europe. Last year the company carried over a surplus of \$600,000, and it has been said on the street that an equal amount will Mr. Hackfeld says it will not be so much, and while it has been said that much of the surplus will be used in developing the water project, he says that while he is not at liberty to speak of that feature, the water will be developed by other means, a separate company to be forms.

Ims assurance from the head of the house of H. Hackiest and Company should be satisfying to the large num-ber of persons who bought Oahu at a high figure and who have watched the decline with considerable anxiety. The statement published in the afternoon paper that the company will need the money which might otherwise be paid as an extra dividend for the proposed water improvements is not exactly as Mr. Hackfeld puts it, but the difference is not sufficient to affect the price of the stock on the Honolulu market. Oahu will probably advance today for the reason that there was some demand and few sales yesterday. With the assurance that comes from Mr. Hackfeld as to the cause of the depression and the statement by Mr. Klampf that a dividend will not be passed, the price should go up.

HUSTAGE SCENTS A DEEP-LAID PLOT AND WARNS THE VOTERS

The independent candidate for mayor, Charles Hustace, Jr., has solved the candidacy of Colonel Parker, and the result of Mr. Hustace's cogitations was announced from the souphox yesterday at noon. Mr. Hustace scents a deep-laid plot, a vile conspiracy, and all other things along that line that rival candidates can scent within a week or two of election day. Said Mr.

Mr. Hustace was in splendid form yesterday and roasted Colonel Parker and The Advertiser, which he referred to as "that poor old lady dawn the street." He declared that Parker had not written a line of the platform he is announcing, because it bore the earmarks of a prominent attorney and beit "unless he had an icebag on his head." At any rate, said Mr. Hustace, Colonel Parker had no business to have independent ideas of his own and no right to go outside of the bounds of
